

Informatica LLC 401(k) Retirement Plan

ENROLL NOW TO TAKE FULL ADVANTAGE
OF YOUR RETIREMENT SAVINGS PLAN BENEFITS

YOUR GUIDE TO GETTING STARTED

Save for retirement through Informatica LLC 401(k) Retirement Plan easily, regularly, and automatically.

With all the responsibilities and financial priorities you might be juggling – mortgage payments, parenthood, saving or paying for college, caring for parents, and more – it can be easy to overlook the need to save for retirement. But it's important to consider setting aside money for retirement as early and regularly as you can, because the quality of your retirement years could very well depend on how much you have been able to save.

As you consider enrolling in Informatica LLC 401(k) Retirement Plan and selecting investment options for your account, please review this Enrollment Guide. It contains valuable information that may help you better understand the basics of investing, as well as help you make the most of your company's retirement savings plan.

LOOK INSIDE FOR:

- Participating in your plan
- Investment Options
- Next Steps
- Rollover contribution form

Please review this information carefully.

PARTICIPATING IN YOUR **plan**

There are many benefits to participating in the Informatika LLC 401(k) Retirement Plan. One of the primary benefits is that you will receive help reaching your financial goals for retirement. By reviewing the important information in this guide and visiting Fidelity NetBenefits® at www.401k.com, you can take advantage of what your company and Fidelity have to offer.

When am I eligible for the Plan?

You are eligible to participate in the Plan if:

- you are employed by the Employer
- and you are not:
 - a leased employee
 - Interns

How do I enroll?

To enroll, log on to Fidelity NetBenefits® at www.401k.com. You can also set up your beneficiary information by going to Fidelity NetBenefits® at www.401k.com or calling a Fidelity Representative at 1-800-890-4015 to request a Designation of Beneficiary Form to fill out and return to Fidelity.

Your plan has an automatic enrollment feature. If the automatic enrollment feature applies to you and you do not take action, you will be automatically enrolled at 5%. If the automatic enrollment feature applies to you, you will receive a separate notification indicating when deferrals will begin to be made on your behalf. If you do not select an investment, your Plan Sponsor has directed Fidelity to place your contributions in the T RowePrice target date fund that most closely aligns with your projected retirement date based upon your birth year.

If you would prefer to elect not to participate at this time or to specifically elect a contribution rate and/or investment options, please contact Fidelity by logging onto www.401k.com or call 1-800-835-5097.

When is my enrollment effective?

Once you satisfy this requirement you will become eligible to participate in the Plan immediately.

How much can I contribute?

Through automatic payroll deduction, you may contribute between 1% and 50% of your eligible

pay on a pretax basis, up to the annual IRS dollar limit (2019 = \$19,000). You may change your deferral percentage as applicable at the beginning of each payroll period.

In addition, you can *automatically* increase your retirement savings plan contributions each year through the Annual Increase Program. To sign up, access the Contributions section within NetBenefits®, or call the plan's toll-free number.

You may use payroll deductions to make an after tax contribution between 1% and 50% of your compensation. You may change your after tax contribution percentage at the beginning of each payroll period.

If you are age 50 or over by the end of the taxable year and have reached the annual IRS limit or Plan's maximum contribution limit for the year, you may make additional salary deferral contributions to the Plan up to the IRS Catch Up Provision Limit (2019= \$6,000).

The Roth 401(k) contribution option is available to you. A Roth 401(k) contribution to your retirement plan allows you to make after-tax contributions and take any associated earnings completely tax free at retirement.

Can I move money from another retirement plan into this one?

You may be permitted to roll over eligible contributions into this Plan from a previous employer's retirement plan. For other eligible account types, please see your Summary Plan Description. Once you have confirmed that your Employer will accept your rollover contribution, you can get started in the "Rollovers" section online. **Be sure to consider all your available options and the applicable fees and features of each before moving your retirement assets.**

Does the Company contribute to my account?

The Employer may make a discretionary pretax matching contribution to your account. The amount would be equal to a percentage determined annually by a Board of Directors' Resolution.

To be eligible for discretionary matching contributions you are required to:

- make employee pretax deferral contributions or Roth 401(k) after tax deferral contributions. The plan will match on the combined total of these contributions up to the matching limit.

For purposes of determining your matching contributions under the Plan, your pretax contributions will include Age 50 and over Catch-Up Contributions described above.

Your Employer may designate all or a portion of any matching contributions for a Plan Year as "qualified matching contributions" and allocate them to employees to help the Plan pass one or more annually required Internal Revenue Code nondiscrimination test(s). Any such contributions will be allocated to those non-highly compensated Participants eligible to receive the Employer matching contributions described above who made pretax contributions during the Plan Year. Participants are 100% vested in these contributions and may not request a hardship withdrawal of these contributions.

The Employer may make a discretionary profit sharing contribution to only those participants who are eligible under the terms of the plan. Please refer to your employer or Summary Plan Description for more detailed information.

When am I vested?

The term "vesting" refers to the portion of your account balance that you are entitled to under the plan's rules.

You are always 100% vested in your:

- employee pretax account
- rollover account
- after-tax account
- Roth 401(k) after tax deferral account
- and any earnings thereon.

Employer profit sharing contributions, matching

contributions and earnings will be vested in accordance with the following schedule:

Years of Service for Vesting	Percentage
less than 1	0
1	25
2	50
3	75
4	100

Can I take a loan from my account?

Although your plan account is intended for your retirement, you may take a loan from your account.

Can I make withdrawals from my account?

Withdrawals from the Plan are generally permitted in the event of termination of employment, retirement, disability, or death. You may also be eligible for a withdrawal in the case of a severe financial hardship as defined by your Plan.

How do I access my account?

Within NetBenefits®, you have access to your account information, retirement planning tools, and e-Learning workshops® that provide you access to self-paced training on savings and investing principles.

You may call the Retirement Benefits Line at 1-800-890-4015 between 8:30 a.m. and 8:00 p.m. on any business day when the New York Stock Exchange is open. Fidelity Representatives can assist you with transactions and answer many of your questions regarding retirement savings.

How do I learn more?

Within NetBenefits®, you have access to your account information and retirement planning tools including:

- **Live and self-paced learning workshops.** The workshops cover a variety of topics including determining your retirement savings needs, evaluating your investment options and keeping your investment strategy on track to help you achieve your retirement goals.

In addition, you can take advantage of local Investor Centers by scheduling time with a Fidelity

Representative to discuss your total investment needs beyond your retirement savings plan. Or, if you prefer, call 1-800-Fidelity for a complimentary portfolio review.

How do I change my investment options?

You can make changes to your investment selections within NetBenefits® or by calling the Retirement Benefits Line at 1-800-890-4015.

Create an asset strategy that's right for you:

- Visit the Library section within NetBenefits®

How do I manage my account?

Within NetBenefits®, you may sign up to receive alerts via email when your retirement savings account strays from the investment allocation you established.

To update your beneficiary information, go to the Profile section within NetBenefits® and enter your beneficiary information at any time.

INVESTMENT options

Before investing in any investment option, consider the investment objectives, risks, charges, and expenses. Contact Fidelity for a mutual fund prospectus or, if available, a summary prospectus containing this information. Read it carefully.

What follows is an introduction to the investment options you can choose for your plan account. You can spread your investments among several options to take advantage of what each has to offer and help balance different types of risk. Reviewing this information can help you understand and compare your options. For more complete information about any of the mutual funds available through the plan, including fees and expenses, log on to Fidelity NetBenefits® at www.401k.com for prospectuses. Read them carefully before you invest.

This spectrum, with the exception of the Domestic Equity category, is based on Fidelity's analysis of the characteristics of the general investment categories and not on the actual investment options and their holdings, which may change frequently. Investment options in the Domestic Equity category are based on the options' Morningstar categories as of the most recent calendar quarter. Morningstar categories are based on a fund's style as measured by its underlying portfolio holdings over the past three years and may change at any time. These style calculations do not represent the investment options' objectives and do not predict the investment options' future styles. Investment options are listed in alphabetical order within each investment category. Risk associated with the investment options may vary significantly within each particular investment category, and the relative risk of categories may change under certain economic conditions. For a more complete discussion of risk associated with the mutual fund options, please read the prospectuses before making your investment decision. The spectrum does not represent actual or implied performance.

ADDITIONAL INVESTMENT **options:**

Target Date funds offer a blend of stocks, bonds, and short-term investments within a single fund. They are designed for investors who don't want to go through the process of picking several funds from the three asset classes but who still want to diversify among stocks, bonds, and short-term investments.

Categories to the left have potentially more inflation risk and less investment risk		Categories to the right have potentially less inflation risk and more investment risk

		T. Rowe Price Retirement I 2060 Fund I Class

Target date investments are generally designed for investors expecting to retire around the year indicated in each investment's name. The investments are managed to gradually become more conservative over time. The investment risks of each target date investment change over time as its asset allocation changes. They are subject to the volatility of the financial markets, including equity and fixed income investments in the U.S. and abroad and may be subject to risk associated with investing in high yield, small cap and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates.

Fidelity BrokerageLink® - BrokerageLink includes investments beyond those in your plan's standard lineup. You should compare investments and share classes that are available in your plan's lineup with those available through BrokerageLink, and determine the available share class that is appropriate for your situation. The plan fiduciary neither evaluates nor monitors the investments available through BrokerageLink. It is your responsibility to ensure that the investments you select are suitable for your situation, including your goals, time horizon, and risk tolerance.

NEXT **steps**

Investing in yourself is easy with your retirement plan. You can count on us to support you every step of the way with our account management website, Fidelity NetBenefits®. First log in to www.401k.com and we'll show you how to get started step by step.

Step 1: Enroll online today. Go to www.401k.com and click on "Register Now" when logging in for the first time. Follow the instructions to enroll online. Call the Retirement Benefits Line if you need assistance at 1-800-890-4015.

Step 2: Decide how much to invest and enter your contribution per pay period.

Step 3: Select how you want to invest your contributions among the investment options available in the plan. Investment performance and fund descriptions are available online or over the phone. If you are interested in additional information about investing, go to the NetBenefits® Library to learn more.

Enroll today, and start saving for your retirement.

DESCRIPTIONS OF INVESTMENT **options**

MONEY MARKET FUNDS

**Fidelity® Government
Money Market Fund
0458**

Objective:

Seeks as high a level of current income as is consistent with preservation of capital and liquidity.

Strategy:

The Adviser normally invests at least 99.5% of the fund's total assets in cash, U.S. Government securities and/or repurchase agreements that are collateralized fully (i.e., collateralized by cash or government securities). Certain issuers of U.S. Government securities are sponsored or chartered by Congress but their securities are neither issued nor guaranteed by the U.S. Treasury. Investing in compliance with industry-standard regulatory requirements for money market funds for the quality, maturity, liquidity and diversification of investments. The Adviser stresses maintaining a stable \$1.00 share price, liquidity, and income. In addition the Adviser normally invests at least 80% of the fund's assets in U.S. Government securities and repurchase agreements for those securities.

Risk:

You could lose money by investing in the fund. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Fidelity Investments and its affiliates, the fund's sponsor, have no legal obligation to provide financial support to the fund, and you should not expect that the sponsor will provide financial support to the fund at any time.} The fund will not impose a fee upon the sale of your shares, nor temporarily suspend your ability to sell shares if the fund's weekly liquid assets fall below 30% of its total assets because of market conditions or other factors. Interest rate increases can cause the price of a money market security to decrease. A decline in the credit quality of an issuer or a provider of credit support or a maturity-shortening structure for a security can cause the price of a money market security to decrease.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who has a low tolerance for investment risk and who wishes to keep the value of his or her investment relatively stable.
- Someone who is seeking to complement his or her bond and stock fund holdings in order to reach a particular asset allocation.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

Short-term Redemption Fee Notes:

None

BOND FUNDS

**Fidelity® U.S. Bond
Index Fund
2326**

Objective:

Seeks to provide investment results that correspond to the aggregate price and interest performance of the debt securities in the Bloomberg Barclays U.S. Aggregate Bond Index.

Strategy:

Normally investing at least 80% of the fund's assets in bonds included in the Bloomberg Barclays U.S. Aggregate Bond Index. Using statistical sampling techniques based on duration, maturity, interest rate sensitivity, security structure, and credit quality to attempt to replicate the returns of the Index using a smaller number of securities. Engaging in transactions that have a leveraging effect on the fund, including investments in derivatives - such as swaps (interest rate, total return, and credit default) and futures contracts - and forward-settling securities, to adjust the fund's risk exposure. Investing in Fidelity's central funds (specialized investment vehicles used by Fidelity funds to invest in particular security types or investment disciplines).

Risk:

In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Foreign securities are subject to interest rate, currency exchange rate, economic, and political risks. The fund can invest in securities that may have a leveraging effect (such as derivatives and forward-settling securities) which may increase market exposure, magnify investment risks, and cause losses to be realized more quickly.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking potential returns primarily in the form of interest dividends rather than through an increase in share price.
- Someone who is seeking to diversify an equity portfolio with a more conservative investment option.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

Returns prior to May 4, 2011 are those of the Premium Class and reflect the Premium Class' expense ratio. Had the Institutional Premium Class' expense ratio been reflected, total returns would have been higher.

As of 11/05/2018, this fund changed its name from Fidelity U.S. Bond Index Fund - Institutional Premium Class.

The Bloomberg Barclays U.S. Aggregate Bond Index is an unmanaged market value-weighted index for U.S. dollar denominated investment-grade fixed-rate debt issues, including government, corporate, asset-backed, and mortgage-backed securities with maturities of at least one year.

Short-term Redemption Fee Notes:

None

**JPMorgan Core Plus
Bond Fund Class R6
OKZ8**

Objective:

The investment seeks a high level of current income by investing primarily in a diversified portfolio of high-, medium- and low-grade debt securities.

Strategy:

The fund will normally invest at least 80% of its net assets plus the amount of borrowings for investment purposes in bonds. Under normal conditions, at least 65% of the fund's total assets must be invested in securities that, at the time of purchase, are rated investment grade. It may invest up to 35% of its net assets in foreign securities, including securities denominated in foreign currencies. The fund's average weighted maturity will ordinarily range between five and twenty years.

Risk:

In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking potential returns primarily in the form of interest dividends rather than through an increase in share price.
- Someone who is seeking to diversify an equity portfolio with a more conservative investment option.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 02/22/2005. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 03/05/1993, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

Weighted average maturity (WAM) is the weighted average of all the maturities of the securities held in a fund. WAM for money market funds can be used as a measure of sensitivity to interest rate changes. Generally, the longer the maturity, the greater the sensitivity. WAM for money market funds is based on the dollar-weighted average length of time until principal payments must be paid, taking into account any call options exercised by the issuer and any permissible maturity shortening devices, such as demand features and interest rate resets. For bond funds, WAM can be used as a

**Templeton Global Bond
Fund Class R6
OU52**

measure of sensitivity to the markets. Generally, the longer the maturity, the greater the sensitivity. The WAM calculation for bond funds excludes interest rate resets and only takes into account issuer call options if it is probable that the issuer of the instrument will take advantage of such options.

Short-term Redemption Fee Notes:

None

Objective:

The investment seeks current income with capital appreciation and growth of income.

Strategy:

Under normal market conditions, the fund invests at least 80% of its net assets in "bonds." Bonds include debt obligations of any maturity, such as bonds, notes, bills and debentures. It invests predominantly in bonds issued by governments, government-related entities and government agencies located around the world. The fund may invest up to 25% of its total assets in bonds that are rated below investment grade or, if unrated determined by the investment manager to be of comparable quality. It is non-diversified.

Risk:

Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. The fund may invest in lower-quality debt securities that involve greater risk of default or price changes due to potential changes in the credit quality of the issuer. In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking potential returns primarily in the form of interest dividends rather than through an increase in share price.
- Someone who is seeking to complement his or her core bond holdings with international bond investments and who can tolerate the greater risks associated with foreign investments.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 05/01/2013. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 09/18/1986, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

Short-term Redemption Fee Notes:

None

BALANCED/HYBRID FUNDS

**Janus Henderson
Balanced Fund Class N
OUP3**

Objective:

The investment seeks long-term capital growth, consistent with preservation of capital and balanced by current income.

Strategy:

The fund pursues its investment objective by normally investing 35-65% of its assets in equity securities and the remaining assets in fixed-income securities and cash equivalents. It normally invests at least 25% of its assets in fixed-income senior securities. The fund's fixed-income investments may reflect a broad range of credit qualities and may include corporate debt securities, U.S. government obligations, non-U.S. government securities, mortgage-backed securities and other mortgage-related products, and short-term securities.

Risk:

Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking to invest in a fund that invests in both stocks and bonds.
- Someone who is seeking the potential both for income and for long-term share-price appreciation and who is willing to accept the volatility of the bond and stock markets.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 05/31/2012. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 09/01/1992, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

Short-term Redemption Fee Notes:

None

DOMESTIC EQUITY FUNDS

American Funds

Fundamental Investors®

Class R-6

OUBJ

Objective:

The investment seeks long-term growth of capital and income.

Strategy:

The fund invests primarily in common stocks of companies that appear to offer superior opportunities for capital growth and most of which have a history of paying dividends. It may invest significantly in securities of issuers domiciled outside the United States. The investment adviser uses a system of multiple portfolio managers in managing the fund's assets.

Risk:

Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the volatility associated with investing in the stock market.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 05/01/2009. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 08/01/1978, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

Fidelity® Contrafund®
K6
2946

Short-term Redemption Fee Notes:

None

Objective:

Seeks capital appreciation.

Strategy:

Normally investing primarily in common stocks. Investing in securities of companies whose value Fidelity Management & Research Company (FMR) believes is not fully recognized by the public. Investing in domestic and foreign issuers. Investing in either "growth" stocks or "value" stocks or both. Using fundamental analysis of factors such as each issuer's financial condition and industry position, as well as market and economic conditions, to select investments.

Risk:

Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. Foreign securities are subject to interest rate, currency exchange rate, economic, and political risks.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated with growth-oriented stocks.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

Short-term Redemption Fee Notes:

None

Franklin Small Cap
Growth Fund Class R6
OSM4

Objective:

The investment seeks long-term capital growth.

Strategy:

The fund invests at least 80% of its net assets in the equity securities of small-cap companies. The equity securities in which the fund invests are predominantly common stock. Small-cap companies are companies with market capitalizations not exceeding (i) \$1.5 billion or (ii) the highest market capitalization in the Russell 2000® Index, whichever is greater, at the time of purchase. It may invest in equity securities of larger companies. The fund, from time to time, may have significant positions in particular sectors such as information technology, industrials, consumer discretionary and healthcare.

Risk:

The securities of smaller, less well-known companies can be more volatile than those of larger companies. Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated both with growth-oriented stocks and with smaller companies.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 05/01/2013. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 05/01/2000, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

The Russell 2000[®] Index is an unmanaged market capitalization-weighted index of 2,000 small company stocks of U.S. domiciled companies.

Short-term Redemption Fee Notes:

None

**Janus Henderson
Enterprise Fund Class N
OU1M**

Objective:

The investment seeks long-term growth of capital.

Strategy:

The fund pursues its investment objective by investing primarily in common stocks selected for their growth potential, and normally invests at least 50% of its equity assets in medium-sized companies. Medium-sized companies are those whose market capitalization falls within the range of companies in the Russell Midcap[®] Growth Index. Market capitalization is a commonly used measure of the size and value of a company. It may also invest in foreign securities, which may include investments in emerging markets.

Risk:

Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. The securities of smaller, less well-known companies can be more volatile than those of larger companies. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated both with growth-oriented stocks and with smaller companies.

**MFS New Discovery
Value Fund Class R6
OVZE**

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 07/12/2012. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 09/01/1992, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

The Russell Midcap[®] Growth Index is an unmanaged market capitalization-weighted index of medium-capitalization growth-oriented stocks of U.S. domiciled companies that are included in the Russell Midcap Index. Growth-oriented stocks tend to have higher price-to-book ratios and higher forecasted growth values.

Short-term Redemption Fee Notes:

None

Objective:

The investment seeks capital appreciation.

Strategy:

The fund normally invests its assets in equity securities. Equity securities include common stocks, equity interests in real estate investment trusts (REITs), and other securities that represent an ownership interest (or right to acquire an ownership interest) in a company or other issuer. MFS focuses on investing in the stocks of companies the adviser believes are undervalued compared to their perceived worth (value companies). While the fund may invest the fund's assets in companies of any size, it primarily invests in companies with small capitalizations. The fund may invest the fund's assets in foreign securities.

Risk:

The securities of smaller, less well-known companies can be more volatile than those of larger companies. Value stocks can perform differently than other types of stocks and can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is comfortable with value-style investments and the potentially greater volatility of investments in smaller companies.

**T. Rowe Price Mid-Cap
Growth Fund I Class
OIDJ**

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 07/02/2012. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 05/26/2011, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

As of 12/21/2018, Fidelity was notified this fund changed its name from MFS® New Discovery Value Fund Class R6. See the fund's prospectus for any additional details.

Short-term Redemption Fee Notes:

None

Objective:

The investment seeks long-term capital appreciation.

Strategy:

The fund normally invests at least 80% of its net assets (including any borrowings for investment purposes) in a diversified portfolio of common stocks of mid-cap companies whose earnings T. Rowe Price expects to grow at a faster rate than the average company. The advisor defines mid-cap companies as those whose market capitalization falls within the range of either the S&P MidCap 400 Index or the Russell Midcap Growth Index. While most assets will typically be invested in U.S. common stocks, the fund may invest in foreign stocks in keeping with the fund's objectives.

Risk:

Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. The securities of smaller, less well-known companies can be more volatile than those of larger companies. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated both with growth-oriented stocks and with smaller companies.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 08/28/2015. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 06/30/1992, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

S&P MidCap 400 Index is a market capitalization-weighted index of 400 mid cap stocks of U.S. companies chosen for market size, liquidity, and industry group representation.

The Russell Midcap Growth Index is an unmanaged market capitalization-weighted index of medium-capitalization growth-oriented stocks of U.S. domiciled companies that are included in the Russell Midcap Index. Growth-oriented stocks tend to have higher price-to-book ratios and higher forecasted growth values.

Short-term Redemption Fee Notes:

None

**T. Rowe Price Mid-Cap
Value Fund I Class
OIAX**

Objective:

The investment seeks to provide long-term capital appreciation.

Strategy:

The fund will normally invest at least 80% of its net assets (including any borrowings for investment purposes) in companies whose market capitalization (number of shares outstanding multiplied by share price), at the time of purchase, falls within the range of the companies in either the S&P MidCap 400 Index or the Russell Midcap Value Index.

Risk:

Value stocks can perform differently than other types of stocks and can continue to be undervalued by the market for long periods of time. The securities of smaller, less well-known companies can be more volatile than those of larger companies. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is comfortable with value-style investments and the potentially greater volatility of investments in smaller companies.

S&P MidCap 400 Index is a market capitalization-weighted index of 400 mid cap stocks of U.S. companies chosen for market size, liquidity, and industry group representation.

The Russell Midcap Value Index is an unmanaged market capitalization-weighted index of medium-capitalization value-oriented stocks of U.S. domiciled companies that are included in the Russell Midcap Index. Value-oriented stocks tend to have lower price-to-book ratios and lower forecasted growth values.

Short-term Redemption Fee Notes:

None

Objective:

The investment seeks to provide long-term capital appreciation by investing in common stocks believed to be undervalued; income is a secondary objective.

Strategy:

In taking a value approach to investment selection, at least 65% of the fund's total assets will normally be invested in common stocks that the portfolio manager regards as undervalued. The fund may purchase stocks issued by companies of any size, but typically focuses its investments on large-cap stocks.

Risk:

Value stocks can perform differently than other types of stocks and can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is comfortable with the volatility of large-cap stocks and value-style investments.

Footnotes:

Short-term Redemption Fee Notes:

None

**Vanguard Institutional
Index Fund Institutional
Shares
OFVH**

Objective:

The investment seeks to track the performance of a benchmark index that measures the investment return of large-capitalization stocks.

Strategy:

The fund employs an indexing investment approach designed to track the performance of the Standard & Poor's 500 Index, a widely recognized benchmark of U.S. stock market performance that is dominated by the stocks of large U.S. companies. The advisor attempts to replicate the target index by investing all, or substantially all, of its assets in the stocks that make up the index, holding each stock in approximately the same proportion as its weighting in the index.

Risk:

Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the volatility associated with investing in the stock market.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

INTERNATIONAL/GLOBAL FUNDS

**American Funds
EuroPacific Growth
Fund® Class R-6
OUBE**

Objective:

The investment seeks long-term growth of capital.

Strategy:

The fund invests primarily in common stocks of issuers in Europe and the Pacific Basin that the investment adviser believes have the potential for growth. Growth stocks are stocks that the investment adviser believes have the potential for above-average capital appreciation. It normally will invest at least 80% of its net assets in securities of issuers in Europe and the Pacific Basin. The fund may invest a portion of its assets in common stocks and other securities of companies in emerging markets.

Risk:

Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking to complement a portfolio of domestic investments with international investments, which can behave differently.
- Someone who is willing to accept the higher degree of risk associated with investing overseas.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 05/01/2009. TARGET DATE FUNDS

**T. Rowe Price
Retirement I 2005 Fund
I Class
OIET**

Objective:

The investment seeks the highest total return over time consistent with an emphasis on both capital growth and income.

Strategy:

The fund pursues its objective by investing in a diversified portfolio of other T. Rowe Price stock and bond funds that represent various asset classes and sectors. The fund's allocation between T. Rowe Price stock and bond funds will change over time in relation to its target retirement date. It is designed for an investor who retired at or about the target date and who plans to withdraw the value of the account in the fund gradually after retirement.

Risk:

The target date funds are designed for investors expecting to retire around the year indicated in each fund's name. The funds are managed to gradually become more conservative over time as they approach their target date. The investment risk of each target date fund changes over time as its asset allocation changes. They are subject to the volatility of the financial markets, including that of equity and fixed income investments in the U.S. and abroad, and may be subject to risks associated with investing in high-yield, small-cap, and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking an investment option intended for people in or very near retirement and who is willing to accept the volatility of diversified investments in the market.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option or who does not feel comfortable making asset allocation choices over time.

- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option or who does not feel comfortable making asset allocation choices over time.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

Short-term Redemption Fee Notes:

None

Objective:

The investment seeks the highest total return over time consistent with an emphasis on both capital growth and income.

Strategy:

The fund pursues its objective by investing in a diversified portfolio of other T. Rowe Price stock and bond funds that represent various asset classes and sectors. The fund's allocation between T. Rowe Price stock and bond funds will change over time in relation to its target retirement date. It is primarily designed for an investor who anticipates retiring at or about the target date and who plans to withdraw the value of the account in the fund gradually after retirement.

Risk:

The target date funds are designed for investors expecting to retire around the year indicated in each fund's name. The funds are managed to gradually become more conservative over time as they approach their target date. The investment risk of each target date fund changes over time as its asset allocation changes. They are subject to the volatility of the financial markets, including that of equity and fixed income investments in the U.S. and abroad, and may be subject to risks associated with investing in high-yield, small-cap, and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking an investment option that gradually becomes more conservative over time and who is willing to accept the volatility of the markets.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option or who does not feel comfortable making asset allocation choices over time.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

Plan Name (i.e., "the Plan"): Informatica LLC 401(k) Retirement Plan

Plan#: 01904

Incoming Rollover Instructions

"Rolling over" money into the Plan is a three-step process. Please follow these instructions to ensure that this process is completed in a timely and accurate manner. *Please Note:* Failure to follow these instructions may result in a delay in the processing of your request and may jeopardize your ability to roll over your distribution.

Step 1. Request your distribution

Request a direct rollover distribution from your previous eligible retirement plan. See the Incoming Rollover Contribution Application for a list of the types of plans or accounts from which rollovers may be made to your employer's plan. Please keep in mind that you can only rollover your Roth 401(k) or After-tax contributions into the plan if your plan allows for these types of rollovers. Check with your Benefits Department to see if these types of rollovers are allowed. There are two distribution check payable options:

Option 1.

The check can be made payable to Fidelity Investments Institutional Operations Company, Inc. (or FIIOC), for the benefit of (YOUR NAME). The check must be from the distributing trustee or custodian. (Personal checks are not acceptable.) **Note:** This type of distribution avoids automatic income tax withholding. Also, it avoids the possible 10% early withdrawal penalty if you are under the age of 59 1/2.

Option 2.

If the distribution was originally made payable directly to you, you must send your rollover contribution to Fidelity via a certified check or money order only for the amount you are rolling over payable to FIIOC. (Personal checks are not acceptable.) **Note:** If your distribution is initially received as a check made payable to you, your rollover must be completed within 60 days of receipt of the distribution. Your previous administrator will be required to withhold income taxes. As a result, you will not be able to roll over 100% of your eligible distribution unless you have extra savings available to make up the amount withheld. You must also roll over that amount within 60 days of receipt of your distribution. If you do not make up the amount withheld, that amount will be considered a withdrawal from the previous program and the taxable portion will be subject to ordinary income taxes and possibly a 10% early withdrawal penalty.

Fidelity does not accept wire transfers of funds. You must request a CHECK from your previous plan or IRA. The check should be mailed directly to you. Once you have received the check, please follow the directions in Step 2.

Step 2. Initiate your rollover request

Please log on to www.401k.com to initiate your rollover request or complete the Incoming Rollover Contribution Application. Please be sure to complete all items, and sign the form if indicated.

Please Note: This rollover contribution will be invested based on the investment elections you have on file for rollover contributions to the Plan. If you have not previously made investment elections for your rollover contribution please log on to NetBenefits® at www.401k.com to do so. Otherwise, it will be invested based on your elections for elective deferral contributions. If you have not made investment elections for either rollover or deferral contributions, this amount will be invested in the Plan-designated default investment option. If you wish to make investment elections for your rollover contribution, please do so by contacting Fidelity Investments prior to submitting this form.

If you are not sure of the plan type that you are rolling out of, please contact your previous Plan Sponsor or IRA custodian for verification. Some plan types are not eligible for rollover.

You should make a copy of the check and the Incoming Rollover Contribution Application for your records.

Step 3. Mail the information

Mail (1) the Incoming Rollover Contribution Application and (2) the check to:

FIRST CLASS MAIL WITH STAMP:

Fidelity Investments Client Service Operations
P.O. Box 770003 Cincinnati, OH 45277-0065

Overnight Address:

Fidelity Investments
Client Service Operations (KC1F-L)
100 Crosby Parkway Covington, KY 41015

Please include all the information requested. Incomplete forms and the accompanying check will be returned to you and may jeopardize your ability to roll over your distribution.

Once your contribution is accepted into the Plan, you can log on to Fidelity NetBenefits® at www.401k.com to view your rollover contribution and investment election(s). Please allow at least seven business days for processing. If you have any questions about rollover contributions, call **1-800-835-5097**. Please be sure you have beneficiary information for the Plan on file.

Plan Name (i.e. the Plan): Informatica LLC 401(k) Retirement Plan

Plan #: 01904

Incoming Rollover Contribution Application

Section One: Participant Information (please print)

The following section must be completed entirely to ensure that your account is properly set up

Social Security #: [] [] [] - [] [] - [] [] [] []

Hire Date: ____/____/____ Birth Date: ____/____/____

Participant Name (first, MI, last): _____

Participant Address: _____

City: _____ State: _____ ZIP: _____

Phone (day): _____ Phone (evening): _____

Section Two: Rollover Contribution Information

Acceptable rollover funds

The Plan will accept taxable* money from the following types of plans: 401(a) plans (e.g., 401(k)); 403(a) plans; governmental 457(b) plans; 403(b) plans (e.g., plans of tax-exempt organizations); conduit IRAs (rollover IRAs); non-conduit IRAs (traditional IRAs, Simplified Employee Pension plans (SEP-IRAs)) and "SIMPLE" IRA distributions made more than two years from the date you first participated in the SIMPLE IRA; distributions of taxable monies made to you as (1) a Spousal beneficiary from a current or former spouse from these types of plans, or (2) an alternate payee pursuant to a qualified domestic relations order (QDRO). In addition, the Plan will accept the following money types if indicated below: Roth 401(k), Roth 403(b), or Roth 457(b); After-tax contributions from 401(a) and 403(a) plans.

*Taxable money is defined as pretax contributions (employee and employer), earnings on pretax contributions, and taxable earnings on after-tax contributions from your previous employer's plan.

Please note: Making rollover contributions to the Plan that consist of assets other than qualified 401(a), or 403(a) plan assets, or conduit IRA (rollover IRA) assets, may result in the loss of capital gains or 10-year income-averaging tax treatment associated with lump sum distributions from the Plan. If you may be eligible for this special tax treatment, you should consult your tax adviser and carefully consider the impact of making a rollover contribution to the Plan. Please talk to your tax adviser for additional information and review the special tax notice to determine if you're eligible.

Enclosed Contribution

\$	[] [] [] [] [] [] [] [] [] []	Pre-tax Dollars
\$	[] [] [] [] [] [] [] [] [] []	After-tax dollars
\$	[] [] [] [] [] [] [] [] [] []	After-tax Contributions excluding earnings
\$	[] [] [] [] [] [] [] [] [] []	Roth 401(k), 403(b) Government 457(b)
\$	[] [] [] [] [] [] [] [] [] []	Roth 401(k), 403(b), Government 457(b) Contributions excluding earnings
	[] [] / [] [] / [] [] [] []	Date of First Roth 401(k), 403(b), Government 457(b) contribution

Unacceptable rollover sources

The Plan cannot accept money from the following sources: rollovers from nonspousal beneficiary accounts, payments over a life expectancy or a period of 10 or more years, or mandatory age 70½ distributions. Also unacceptable are Roth IRAs, HSAs and Coverdell Education Savings Accounts (CESAs). In-kind distributions of employer stock are not acceptable; therefore, stock must be sold and the proceeds (including any appreciation realized through the date of distribution) may be rolled over.

Section Three: Investment Elections

I direct Fidelity to invest my rollover contribution into my current investment mix applicable to rollover contributions. If I have not previously made investment elections for the rollover contribution it will be invested based on my elections for elective deferral contributions. If I have not selected an investment mix on my own via NetBenefits® or by telephone, I understand that this rollover contribution will be invested in the Plan's default investment option as directed by my employer.

Section Four: Participant Certification

I authorize the investment election for this rollover and acknowledge that I have received information detailing my available investment options. I acknowledge that my rollover contribution will be invested in accordance with section three of this form.

I certify that this rollover amount is composed ONLY of money from acceptable sources listed under Section Two, and I have completed the information regarding the source of this money to the best of my knowledge. Also, if the distribution check was made payable to me, I understand that this rollover must be received and deposited to my account within 60 days of receipt of the distribution. I understand that, once invested, these monies will be subject to the terms that govern the Plan.

X

Signature of Employee

Date

Application must be signed, or form and check will be returned to you.

Please complete this application and return it with your rollover check.

For Fidelity Use Only

NIGO

Please provide the following optional information regarding the origin of this rollover: Plan Name: _____
